

SCENES-N-NATURE®

UV RESIN FLEXIBLE/CLEAR NW6261

INSTRUCTIONS

Wear UV Safety Glasses when working with UV Lights. Do not cure UV Resin on skin. Resin gets hot when curing.

Icicles

1. Place a drop of UV Resin onto an overhang. Shine UV light onto drop to cure it before it falls off of overhang.
2. Apply a second drop onto the first, curing as it flows off of the first drop.
3. Continue adding UV Resin drops and curing them until desired length of icicle is reached.
4. Shine UV light on all sides of icicle to ensure it is fully cured. Resin will no longer be tacky.

Surface Water

1. Spread UV Resin onto cured Water Resin (NW6265) using Resin Knives (NW6263).
2. Briefly flash UV light onto UV Resin to thicken the resin.
3. Use Resin Knives to manipulate UV Resin into desired form.
4. When finished shaping the UV Resin, shine UV light onto resin for several seconds to cure.

Conforms to Health
Requirements of
ASTM D4236

Not suitable for children under 14 years! / Pas adapté aux
enfants de moins de 14 ans! / No adecuado para niños
menores de 14 años! / Nicht geeignet für Kinder unter 14!

 **WARNING:** May cause skin sensitization, skin & eye irritation. Do not contact liquid directly. Handle with care. In case of allergy/irritation, consult your physician immediately.
